

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1.-30. (Cancelled).

31. (Previously Presented) An optical disk comprising:

a data zone having pits indicating data signals readable by light radiation;

a reflective layer formed on the data zone; and

portions of the reflective layer being trimmed by a laser forming markings,

21 wherein the markings form a barcode pattern indicating information and are formed on a track of the optical disk, and the pits are provided between successive markings of the barcode pattern.

32. (Previously Presented) A method of manufacturing an optical disk comprising the steps of:

forming, on a substrate, a data zone having pits indicating data signals readable by light radiation;

forming a reflective layer on the data zone; and

trimming the reflective layer to form markings on a track of the optical disk;

wherein the markings form a barcode pattern indicating information and the pits are provided between successive markings of the barcode pattern.
